

global seedlings

Your customers are looking for sustainable ways to promote their companies.

Deal with the best... PRT is the largest grower of container conifer seedlings in North America. We provide premium seedlings in clear poly bags or tubes that are ideal for special events, business generating initiatives, open houses, fundraising, weddings, and more. Each seedling has its own root plug grown in peat, making them hardy for shipping and a superior "green" promotional product. PRT uses primarily Blue Spruce seedlings; a slow growing ornamental tree, ideal for potting or direct planting that your customer – and the environment – are sure to love.

All of our Global Seedlings products have full color printed labels at no extra cost to professionally display your clients' logo artwork and message.

#GS2031 Clear bio-degradable poly bag 3.5" x 12 - 15". Full color 2" x 4" waterproof label included in price. Optional strategic tree tag an additional cost for all seedlings.*

#GS2032 Clear bio-degradable poly bag 3.5" x 12 - 15" pre-printed with an environmental message add \$0.15T (E). Full color 1.5" x 2.75" waterproof label included.

#GS2034 Clear 1.5" x 12" tube with black caps. Tube can be used for mailing or as a handout. Add \$1.79T (E). Full color 2" x 4" waterproof label included.

Ask how you can print your bio-degradable bags with custom artwork!
