

# Lucky Bamboo

## Another Grow Green product from PRT!

Lucky Bamboo (*dracaena sanderiana*) is an ideal gift for offices, homes, restaurants, hotel rooms, weddings and more. They are topical too... as who isn't looking for something a little "green" and "lucky" these days.

Lucky Bamboo is extremely easy to maintain and make a fantastic indoor environmentally friendly promotional product.

### How to care for your Lucky Bamboo

Place our 6" Lucky Bamboo stem in a vase with an inch of water or in our value-added branded glass vase with green acrylic "pebbles" to hold the stem.

They do best in bright, indirect lighting at room temperature.

Lucky Bamboo is extremely durable and with minimal care (water) will provide many years of relaxed enjoyment.
