

An Apparel and Promotional Product Company - Over 800,000 Products!

Free Samples & Free Set Ups on Many Items!
Most competitive vendor. Guaranteed!

Business Cards

Choose to print one-sided or two-sided cards, and select from three high quality cover stock options. Include your picture, product images, or brightly colored graphics.

Business cards are ordered in increments of 500. You pay one low price for the first 500, and less for each additional batch. There's no extra charge for different names, so you can get cards for everyone in your company.

Letterhead and Envelopes

We only use laser-safe stock, ensuring that everything you print on your letterhead will look its best.

Letterhead and envelopes can be ordered in matching quantities. If you don't need the matching sets, you can order letterhead only or envelopes only.

Brochures

All our brochures have four-color printing on the front. The second side can be ordered blank, or can be printed with black ink or in full color. Want a more lustrous finish and protection against wear and tear? You can choose to add a scuff-resistant aqueous coating to protect your piece and add some shine.

Postcards

We offer one- and two-sided cards in a variety of sizes and stocks. Four-color process printing is available on one side or both sides.

Rack Cards

We offer one- or two-sided rack cards printed on your choice of three sturdy cover stocks.

Greeting Cards & Note Cards

Greeting cards can be printed on dull matte or uncoated stock to make it easier to write inscriptions, or on glossy stock for a warm sheen. Leave the inside blank, or have a message printed in black or color. Greeting cards come scored to make folding easy or we can fold them for you.

Bookmarks

We offer one- or two-sided bookmarks in two popular sizes. Choose from any of our three high-quality cover stocks.

Door Hangers

Door hangers can be one- or two-sided and printed on your choice of three sturdy cover stocks.

Products Cont.

Newsletters

Newsletters range from two to eight pages (or more upon request). We have an assortment of paper to choose from, including economical and high-end options. Print your newsletter in black and white, or make it really pop with full-color graphics. Multi-part newsletters are shipped un-collated or collated, with the fold of your choice.

Catalogs

Catalogs range in size from four to 64 pages. You can select from two sizes and a multitude of paper stocks.

Calendars

Select your preferred paper and stock for the inside and outside of your calendar from a variety of options. Our most popular choice is 80# gloss text for the inside, and 100# gloss text for the cover.

Presentation Folders

All folders have four-color printing on the outside. You can leave the inside blank, or have it printed with black ink or four-color process. The printed sides have gloss varnish added for a durable, high-end finish. Presentation folders are printed on 120# Gloss Cover stock (12 pt), and are available with one or two 4-inch pockets. Business cards slits are available as well.

File Folders

File folders are printed on 120# Gloss Cover stock (12 pt). We can increase the durability and shine of your folders by adding an aqueous coating to the printed sides.

Other Products

We don't just print standard marketing materials like brochures and catalogs. We can meet your promotional needs with many other products.

- Announcements
- Carbonless Forms
- CD Covers
- Labels
- Magnets
- Menus
- Posters and Large Format Printing
- Product Tags
- Statement Stuffers
- Table Tents
- Notepads

Custom Services

When it's time to create marketing materials for your business or revamp your old collateral, remember that nothing sets you apart from your competitors like high-quality, custom print pieces. Our printing experts have a wealth of experience printing custom pieces, and can help you stand head and shoulders above other businesses.

- Custom papers
- 100% recycled paper
- Round corners
- Custom folds
- Pantone and metallic inks
- Spot varnish
- Die cutting
- Embossing
- Foil stamping
- Perforating
- Spiral binding

Mail Services

With our state-of-the-art mailing software and addressing equipment, we not only save you time and eliminate the hassle, we can get your mailing directly to your customers faster.

- We use state-of-the-art mailing software and addressing equipment to process your job quickly and accurately.
- We can ship via Standard Class (Bulk), First Class and First Class Pre-Sorted.
- To make sure your mailing is delivered to the right address the first time, we perform CASS Certification (Coded Accuracy Support System) on every mailing list at no extra charge.
- We can provide targeted mailing lists for your project.
- We offer time-saving services such as inserting, collating, wafer sealing only, addressing only or adding variable data to a piece.
- We can mail all or only a portion of your print total.
- We can hold a printed job for staggered mailings.

Paper Stocks

Standard

70# Lustre Text

This stock is great for laser printing! This uncoated, white stock is perfect for your letterhead and envelopes.

80# Gloss Text

Standard glossy paper stock, about as thick as a light magazine cover. The shiny finish provides an excellent opaque base for rich colors. This is our most popular stock for: Brochures, Catalog Inserts, Flyers, Posters.

80# Matte Text

This stock is finely coated with a non-gloss finish. It provides an excellent opaque base for easy to read, crisp typography. Standard Uses: Brochures, Catalog Inserts, and Flyers.

100# Gloss Text

Similar to the 80# gloss text, but 25% thicker and heavier, for a more substantial feeling piece. Standard Uses: Brochures, Information Sheets, Self-mailers, etc.

80# Gloss Cover

As a "cover" stock, this paper is stiff, about like a postcard or baseball card. This stock is coated with a gloss finish, making photographs and other images look beautiful. Standard uses: durable, heavy-weight Brochures, Catalog Covers, Product Spec Sheets.

80# Dull/Matte Cover

This cover stock is well suited for detailed, crisp printing without a shiny finish. 9pt thickness.

100# Uncoated Cover (14 pt.)

This bright white smooth #1 grade cover stock is 14 pt in thickness and matches the 70# text-weight stock we use for letterhead and envelopes.

120# Gloss Cover (14 pt.)

We use this stock for postcards, business cards, rack cards, presentation folders, and file folders. The glossy, coated finish makes photographs and other images look beautiful.

120# Dull/Matte Cover (14 pt.)

Our dull/matte cover is a substantial cover stock with a smooth, non-shiny coating. It is well suited for detailed, crisp printing without sacrificing the ability to easily write on the paper. An excellent choice for Business Cards, Postcards and Greeting Cards.
